FEEDBACK

FUNCTIONAL FEEDBACK

Code was refactored during mob programming session recently, therefore no functional feedback is required.

STYLE FEEDBACK

Feedback 1:
customer_query_tool/customer_query_tool/urls.py - line 19: 'from customers import views' statement is redundant, import is not required and is not being used.

Feedback 2:
customer_query_tool/customer_query_tool/settings.py: Inconsistent whitespace throughout file, i.e 3 blank lines at lines 92, 93, 95

Feedback 2.1:
customer_query_tool/customers/admin.py: Inconsistent whitespace between class definition and imports.

Feedback 2.2:
customer_query_tool/customers/forms.py: Inconsistent whitespace between class definitions and between imports.

Feedback 2.3:
customer_query_tool/customers/serializers.py: Inconsistent whitespace between class definitions and between imports.

Feedback 3:
customer_query_tool/customers/models.py – line 4: 'from django.urls import reverse' statement is redundant, import is not required and is not being used.

Feedback 4:
customer_query_tool/requirements.txt: Missing coverage, model-bakery and selenium

Feedback 5:
customer_query_tool/customers/tests.py – lines 6 and 9: statements are redundant, imports are not required and are not being used.

Feedback 6:

customer_query_tool/populate.py: Inconsistent use of whitespace, double and single quotation marks

Feedback 7:

customer_query_tool/customers/views.py: Inconsistent use of double and single quotation marks

GENERAL FEEDBACK

No general feedback.

RESPONSE

No response required.
