STYLE FEEDBACK

Feedback One: customer_query_tool/customers/forms.py - lines 8, 9: Just a small thing, but I would capitialise "purchases" and "concessions" in the one-th item of the tuples on the lines described.

RESPONSE

This section is for the reviewee to complete and is there response to feedback highlighted by the reviewer. Remember you don't necessarily accept changes suggested in reviews if you can lay out your reasoning! *For example:* *Response to Feedback One:* *Thanks for catching this, I was using the old function call. Adding suggestion to next commit.* *Response to Feedback Three:* *I see what you mean but I used the CDN just because I don't want to throw unnecessary files into the repo just yet until we're certain on a bootstrap version. (Bit of a weird one ik, but you get my idea)*
